Transmittal No. 11-27

## **United Arab Emirates - AGM-114R3 HELLFIRE Missiles**

WASHINGTON, September 22, 2011 -- The Defense Security Cooperation Agency notified Congress Wednesday of a possible Foreign Military Sale to the United Arab Emirates of 500 AGM-114R3 HELLFIRE missiles and associated equipment, parts, training and logistical support for an estimated cost of \$65 million.

The Government of the United Arab Emirates (UAE) has requested a possible sale 500 AGM-114R3 HELLFIRE II missiles, containers, spare and repair parts, support and test equipment, repair and return support, training equipment and personnel training, U.S. Government and contractor logistics, Quality Assurance Team support services, engineering and technical support, and other related elements of program support. The estimated cost is \$65 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country that has been, and continues to be an important force for political stability and economic progress in the Middle East.

UAE intends to use these defense articles and services to modernize its armed forces and expand its existing Army architecture to counter threats posed by potential attack. This proposed sale will also contribute to the UAE military's goal of updating its capability while further enhancing its interoperability with the U.S. and other allies. This capability will serve to deter potential attacks against strategic targets across the UAE, to include infrastructure and resources vital to the security of the U.S.

The proposed sale of this weapon system will not alter the basic military balance in the region.

The prime contractor is HELLFIRE Systems Limited Liability Company in Orlando, Florida. There are no known offset agreements proposed in connection with this sale.

Implementation of this proposed sale will require the assignment of a U.S. Government Quality Assurance Team to the United Arab Emirates.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.
